When you drink **AMUCC** coffee you are supporting the Association of Women Coffee growers of Cauca, Colombia. Apart from being organic, fully traceable and fairtrade, its sweet notes of cocoa, panela and hazelnuts gives it a wonderful taste.

We use Oatly Barista “milk” because oat is the one which uses the least water resources to produce and this one is especially delicious.

We have organic cow milk for the more traditional, but we recommend that you try oat ☺ it will surprise you and you will do the environment and your body a favor.
